Operation Stack: Manston Airport proposal "will hopefully benefit majority of those impacted"

RAC chief engineer David Bizley said: “The Government is to be congratulated at being creative and coming up with an option that will hopefully benefit the majority of those impacted by Operation Stack, both users of the motorway and local residents and business trying to go about their daily lives.

“Anything that gets the lorries off the road is clearly good news for motorists because if up to 2,000 lorries are at Manston they are not blocking up the M20. However, the road from Manston to Dover is not a good one and it will disrupt other traffic trying to use these roads, so let's hope a permanent solution can be found before too long.”

About the RAC

The RAC, an iconic UK brand, provides complete peace of mind to 14 million UK private and business drivers, whatever their motoring needs. As well as its premium nationwide breakdown assistance service – with an expert branded patrol workforce attending more than two million breakdowns every year – it offers a wide range of market-leading products across insurance, legal

services, vehicle inspections and service, maintenance and repair. Included in this is the first-of-its-kind nationwide Mobile Mechanics service which brings the garage to homes and workplaces.

At the forefront of new solutions for business fleets and consumers, the RAC's breakdown service is electric-ready with mobile EV charging technology and can be called on using myRAC – the all-in-one route planner, fuel finder and breakdown reporting app.

Visit the RAC website.
